

# Family Medicine Review Course 2018

Organised by:

Academy of Medicine, Chapter of Family Medicine Physicians &  
College of Family Physicians Singapore

The Chapter of Family Medicine Physicians (FMP) of the Academy of Medicine Singapore (AMS), together with the College of Family Physicians Singapore, have co-organized the Family Medicine Review Course since its inception in 2016. The Course has been warmly received by participants, and we are proud to organize our third Course in 2018 as part of our celebration of World Family Doctors' Day.

Family doctors will play an ever-increasing role in our shift "Beyond Hospital to the Community" as our population ages. In line with MOH's vision of "One Singaporean, One Family Doctor", it is our desire to continue to support one another with the latest clinical updates and essential skills to cope complex scenarios in primary care. Experienced Family Physicians and Family Medicine trainees will find the plenary lectures in our 3<sup>rd</sup> Course to be highly relevant and useful.

We strongly encourage you to sign up for this 3<sup>rd</sup> Course. Join us in our journey as we continue to serve in our many different roles in the community!

We are delighted to invite you to the 3<sup>rd</sup> Family Medicine Review Course, jointly organised by the Chapter of Family Medicine Physicians (Academy of Medicine) and the College of Family Physicians Singapore, to be held on the afternoon of **19 May 2018 (Saturday)** at the **Health Promotion Board**.

This year, we aim to deliver the latest updates of evidence based practices in clinical medicine & patient-centred approaches in difficult ethical scenarios, and boost confidence in the management of various specialty domains in primary care.

The Family Medicine Review Course is designed to cater to help keep the experienced Family Physician abreast with the latest developments in Family Medicine practice, as well as assist the aspiring Family Medicine trainee or medical student learning and preparing for examinations.

We are honoured to have a line-up of eminent and distinguished faculty who are both locally and regionally renowned. They will deliver 2 plenary lectures as well as 4 parallel clinical tracks relevant to the practice of Family Medicine in Singapore today. These tracks include Ethics, Metabolic Medicine, Paediatrics, Gynaecology, Palliative Care & Dentistry.

The course coincides with World Family Doctor's Day (WFDD), and we look forward to seeing you at these important events on the Family Medicine calendar.
